Due to Zoom's Web SDK (used to embed Zoom meeting into Whova), a very small set of users may experience black screen issues with Zoom. Follow

- Once you have successfully enter the session room, **as a Session Chair**, you need to inform all that you will be hosting the session through the **chat window**.
- Then, you have to wait for the staff to set you as a **co-host** of the session. You can click “**Participants**” to view your current status.

- Once you have been set to a **co-host** successfully, you can see your status transformed to **“Co-Host”**.
- When every participant is present, you can click **“Mute All”** to keep the session from disorder. Please do not click **“Participants can unmute themselves”** after you click **“Mute All”**.
- Then you can start talking.

Dear Wei,  
Welcome to Whova! This is a confirmation email that you have signed up for the Whova App.  
If this wasn't you, please contact us at [support@whova.com](mailto:support@whova.com) immediately so that we can look into the case and possibly disable the account.  
Whova helps improve your experience at events and conferences. With the app, you can:  
• View the event agenda and plan your schedule  
• Ask speakers questions in Session Q&A  
• Plan in-person or virtual meet-ups such as a morning run, city tour, or even virtual coffee break with your fellow attendees  
• Post job openings to recruit talent from the conference/event  
• Receive updates such as last minute schedule changes from the organizers  
• Get presentation documents and slides (if the organizers uploaded them)  
If you need more guidance on how to use Whova to attend the event, please visit Whova User Guides.  
If you have any questions, please visit the FAQ page or contact us at [support@whova.com](mailto:support@whova.com).  
We are excited to have you on board and we are committed to ensuring that you have the best possible experience.  
Sincerely,  
The Whova Team
